

Dear Pro-Life Friend,

Following the release of the undercover video that went viral this past week (<https://youtu.be/jjxwVuozMnU>), showing horrific revelations regarding Planned Parenthood and the sale of aborted baby body parts, a desire within many has been stirred to do something.

Every year, Planned Parenthood obsessed, NJ pro-abortion legislators try to reinstate millions of taxpayer dollars back in our state budget. Thanks to Governor Christie's vetoes, NJ taxpayers have not been funding the abortion giant through our state tax dollars.

Already, several states have called for investigations into this grisly body parts scheme, but more than half a billion dollars are still going to Planned Parenthood every year from our federal tax dollars and legislators here in NJ will not stop trying to fund the abortion giant.

We need to bring the power of the grassroots to Planned Parenthood. We need to stand up and show that we are sick of being forced to donate to Planned Parenthood through our tax dollars. If there is a chance that the abortion giant will be defunded from our tax dollars or that there be a proper governmental investigation into the activities of this organization, prayer and witness will need to be increased.

We are participating in the nationwide “Women Betrayed” rallies here in Trenton. These rallies are happening in dozens of cities across the country, all at the same time. And we need YOU to join us.

Our rally will be from 12:00 pm to 1:00 pm, Tuesday, July 28 at
The State House in Trenton.

This rally will be in conjunction with Pro-Life Future, Students for Life of America.

Signs will be provided. Please be aware that no signs on sticks are allowed at this rally. This is a State House regulation, not ours. Please dress according to the weather and bring bottled water.

Please spread the word and include this information in church bulletins and pass on to pro-life friends and family. Carpool if possible and get as many folks to this rally as possible. We need to have a good showing!

Thank you.

For Life,

Marie Tasy

Executive Director
